Re: FCC NOTICE OF PROPOSED RULEMAKING, DOCKET NO. 92-235

Dear Mr. Commissioner

The proposed change the FCC wants to create in additional channels, by reducing the bandwidth and effective radiated power of transmitters, to make more frequencies available is not in the best interests of fire districts. The economical impact of these changes is not good.

We have invested heavily in updating our equipment and if this change goes through, it will be financially impossible for us to purchase newer equipment that will be acceptable with these frequencies.

We would like to file this formal comment with you stating our position.

Respectfully submitted

Lewis Knapp
Commissioner Lewis Knapp
Chairman
East Fishkill Board
of Fire Commissioners
